Fire testing lab set up

Bengaluru: JGI Group has signed an agreement to extend its collaboration with Underwriters Laboratories (UL) in product safety testing and certification. This collaboration is to set up a fire testing laboratory called UL-Jain Fire Laboratory (ULJFL) to provide fire testing services and support the Fire Safety Education Programmes and conduct research and development activities. More than 40 foam tests, sprinkler and spray nozzle tests and dry chemical powder tests have been conducted at the fire testing facility so far. Dr Chenraj Roychand, founder chairman, JGI Group said that organisation is planning to launch an indoor fire suppression laboratory in March 2015.
